

Heated Glass Shelf Modular

The new versatile Heated Glass Shelf Modular by Hatco is perfect for any setting. Durable ceramic black glass creates uniform heat across the entire top surface. The new design uses a modular system so multiple units can be placed side-by-side. Perfect for cafeterias, buffets, convenience stores, supermarkets, delis, restaurants, cafés, clubs, bars, catering, concessions and more.

The Heated Glass Shelf Modular features:

- Durable ceramic glass surface accommodates one 12" x 20" food pan (1/1 GN pan - 530 x 325 mm)
- Electronic Thermostat Control with five heat settings from 130° to 200°F (55° to 95°C)
- Portable modular system design allows great flexibility
- Durable stainless steel housing
- Simple design for easy cleaning and maintenance
- A 6' (1829 mm) cord and plug at the back of the unit
